

How we prepare our students to run a clinic and coach them to become professional colleagues

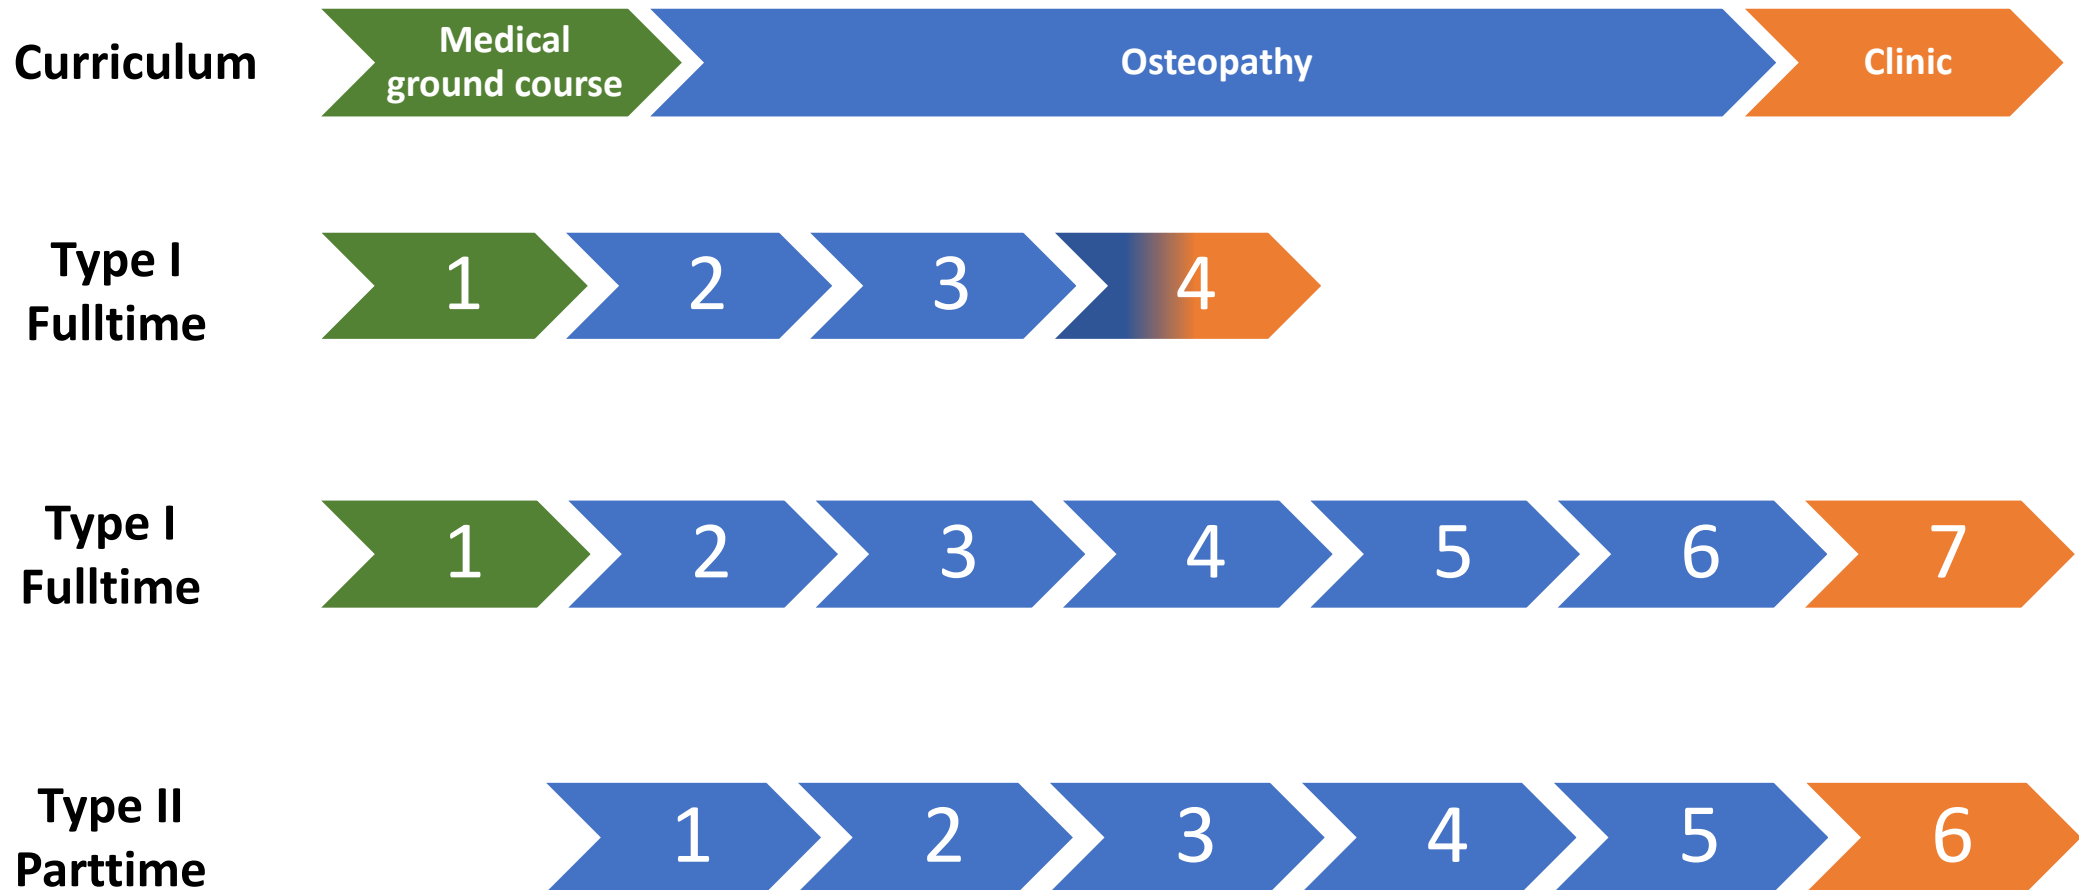

OsEAN Forum, Antwerp 2022

Lex Flisijn D.O., MSc. BE

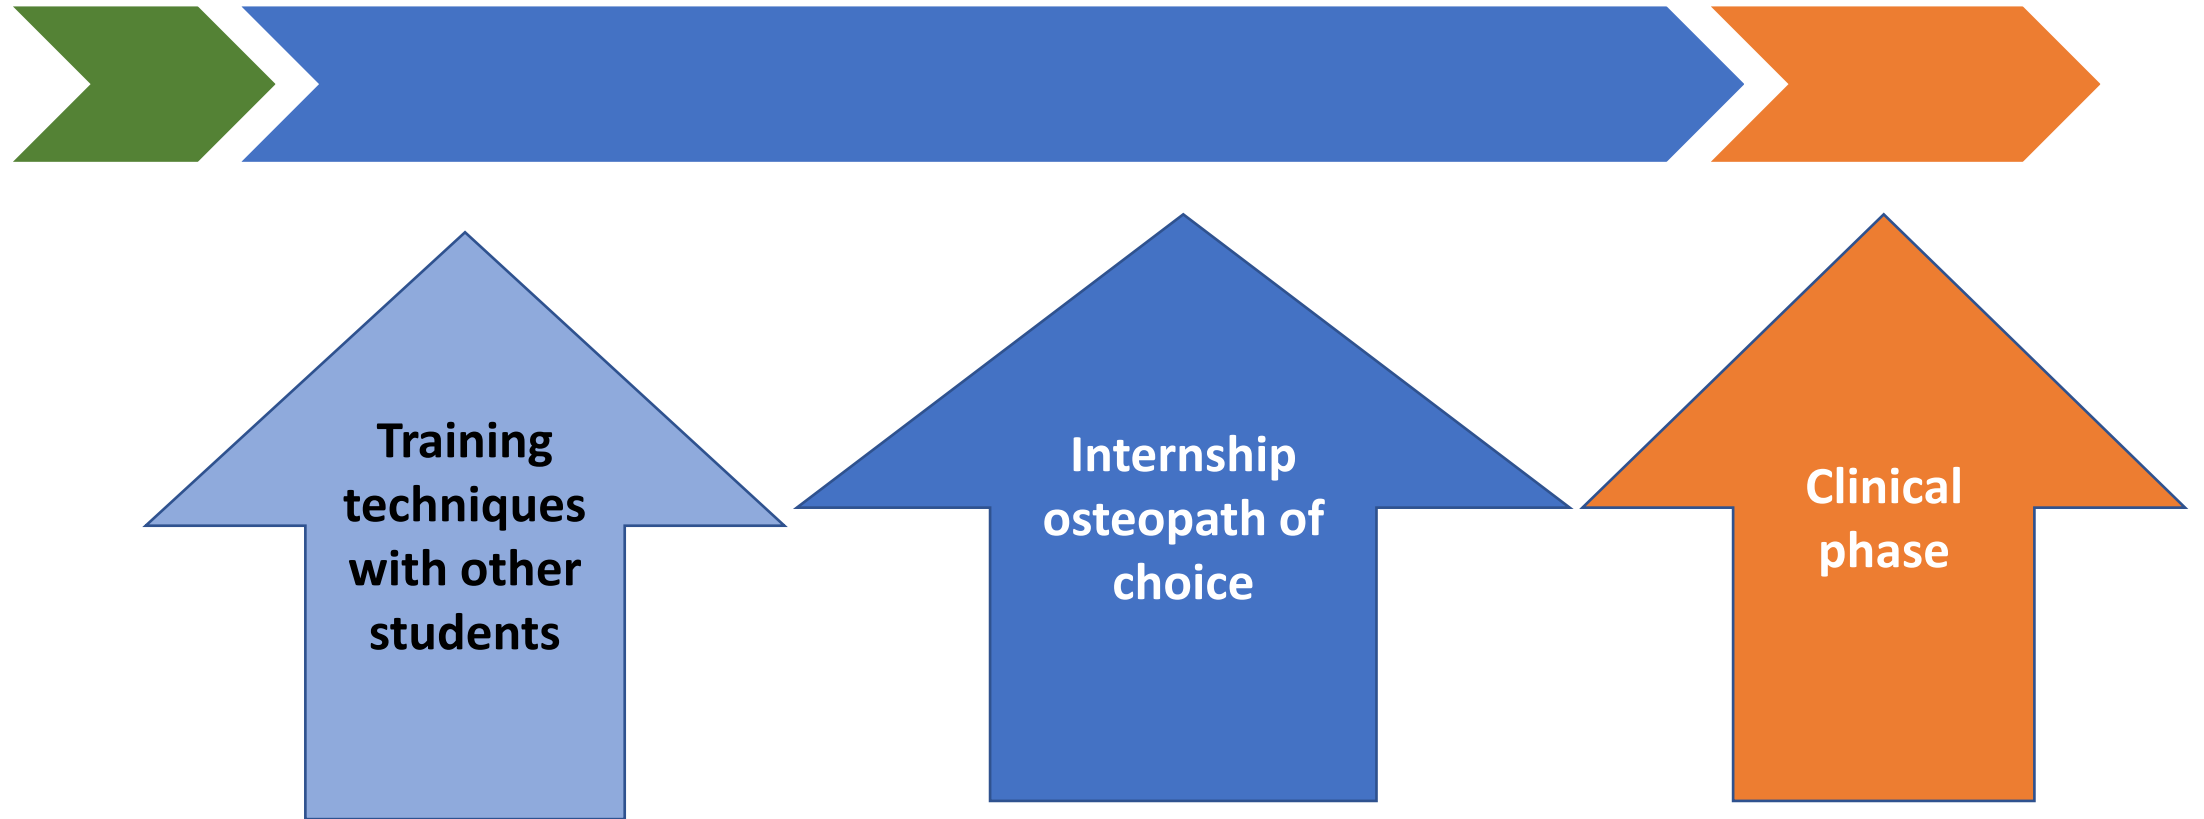

Training on
the job at
Hotelschool
The Hague

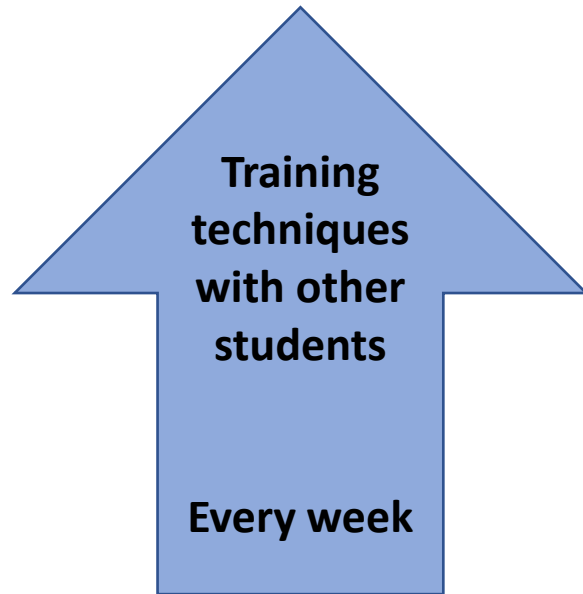

Structure of fulltime and parttime education at College Sutherland Amsterdam

3 elements of practical training during education

Training techniques during full education

- Training techniques start in year 2 till the end
- Every next seminar examination of the new techniques
- Practical examination has to be passed at the end of year 2 & 3,5 Type I / 4 & 6 Type II

Internship 800 workload study hrs (30 ECTS)

- Specific knowledge of the student as defined per year
- Feedback of the osteopath on knowledge, craftsmanship and presentation of the student

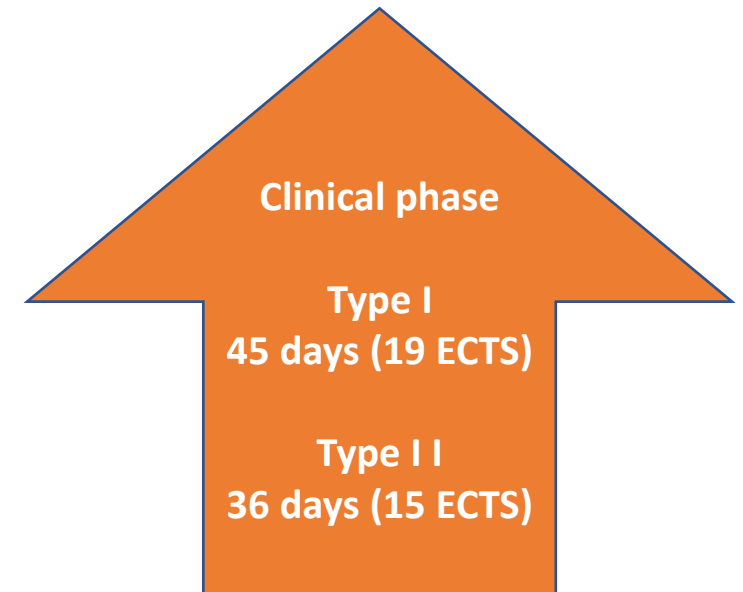

Student has to produce 3 case reports (+5 ECTS)

1. Description of the clinic
2. Full analysis of a typical complaint
3. Full analysis of an atypical complaint

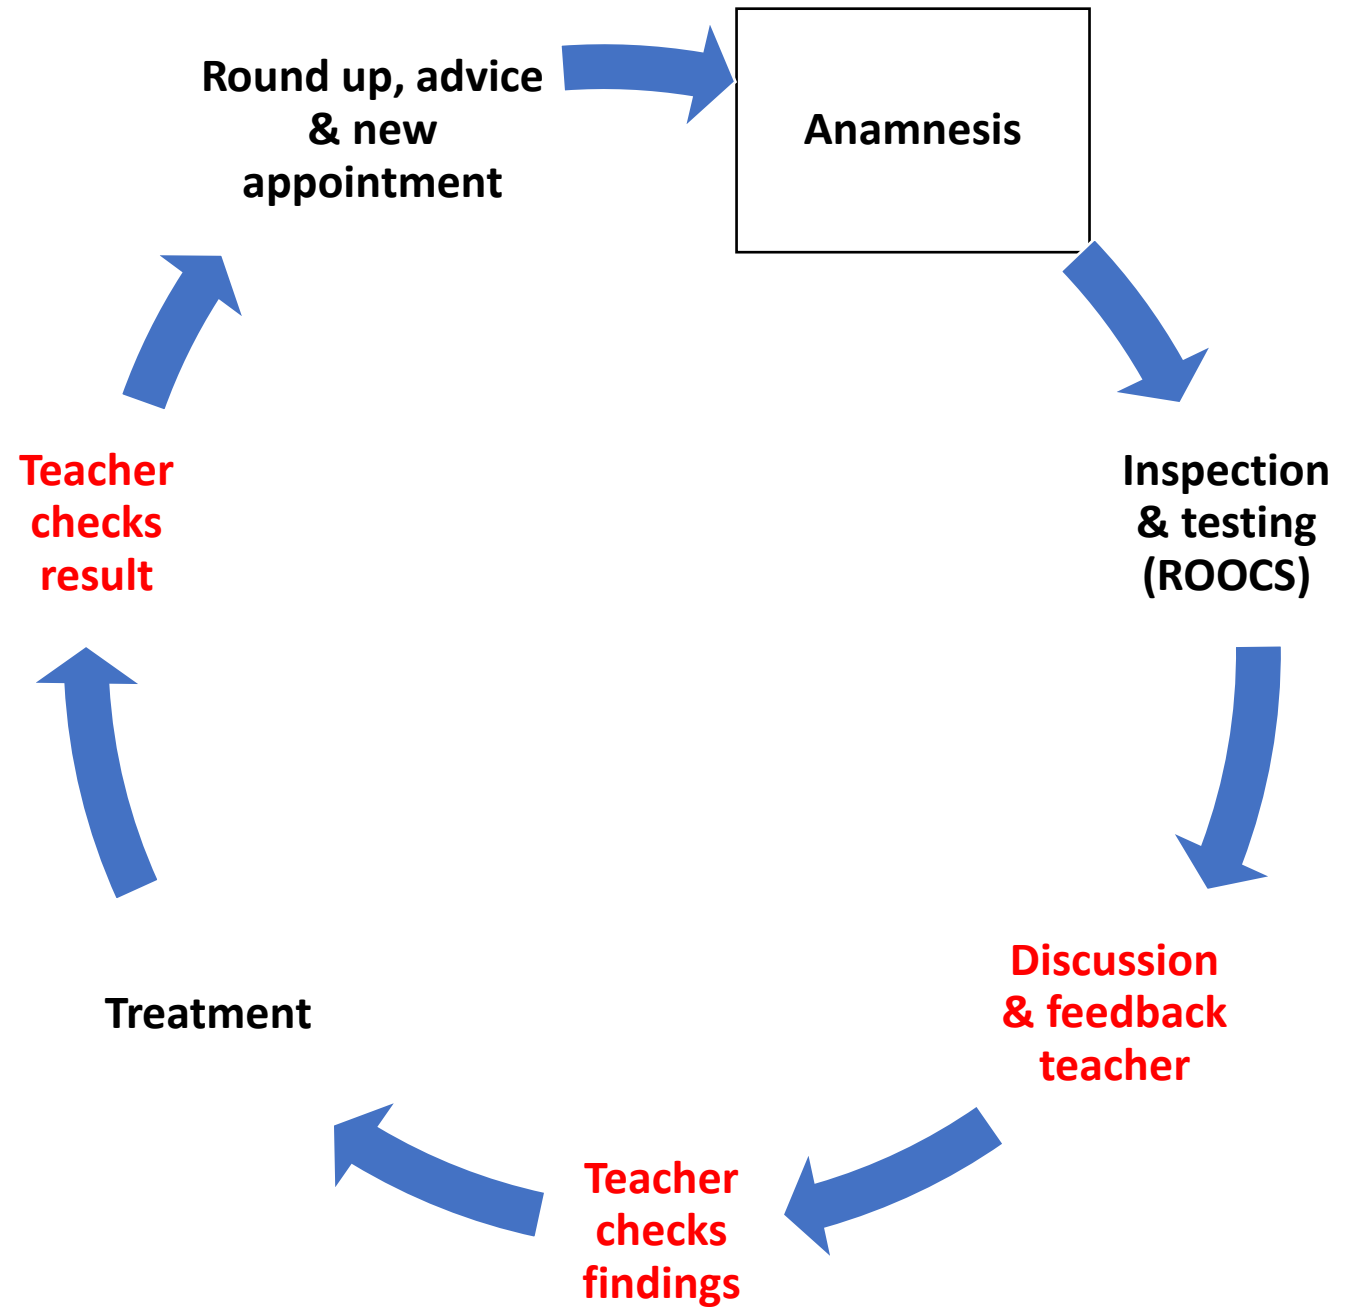

Clinical phase 500 workload study hrs (20 ECTS)

- patient consultations as a therapist 70-100 FT / 55-70+ PT
- patient consultations as assistant 70-100 FT / 55-70+ PT
- Administration desk planning, billing, finance, etc.
- Assisting teachers in regular practical classes
- Act as a teacher in anatomical palpation classes of the first year students
- Produce a case report after each of the 3 stages (+ 5 ECTS)
- At each stage set personal goals and evaluation previous stage

Procedure

3 stages in the clinical phase with evaluation and new partners

2 hrs

- Apply his theoretical and practical skills on a patient
- Focus on critical attitude, presentation of his findings, application of knowledge on a case

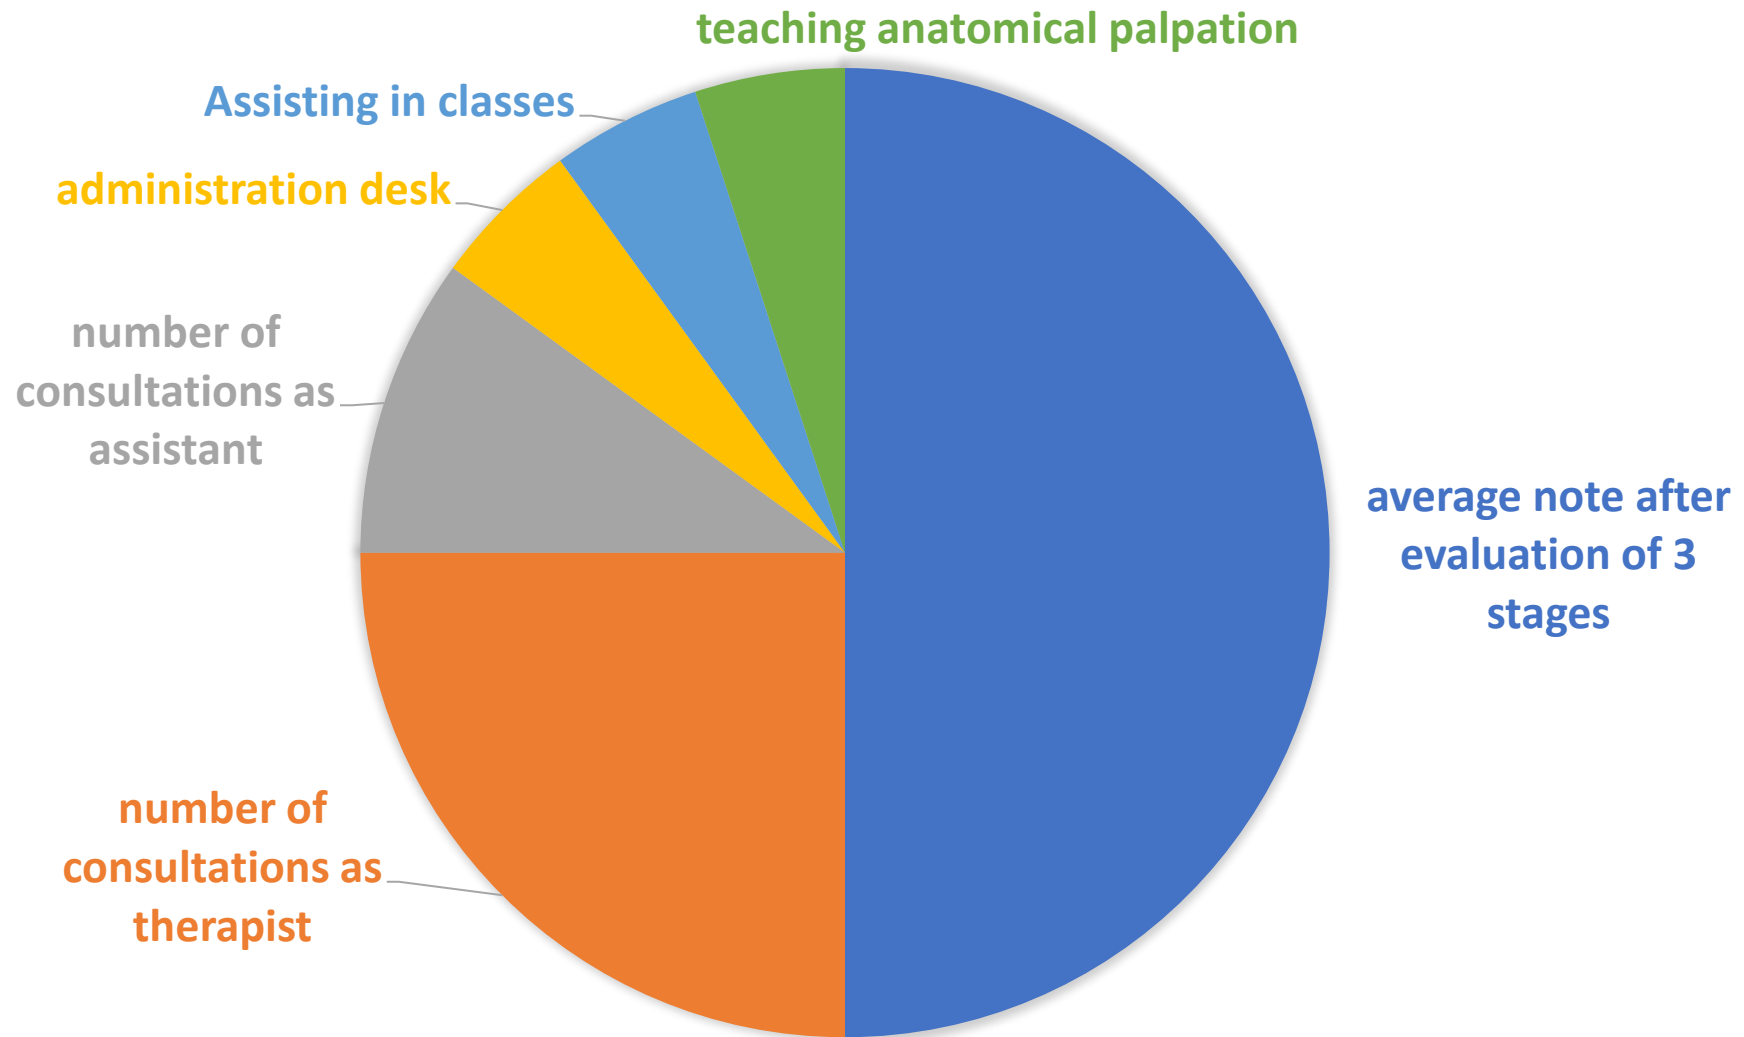

1,5 hrs

- To come up with a treatment plan
- Evaluate and adapt the plan, come to a final conclusion and a prognosis for further treatment

1 hr

- Independant functioning as osteopath in treatment, administration, attitude and discussions
- Professional feedback to teacher, problem solving, filing of patient and treatment data

Grading of the clinical phase

Training at the clinic of College Sutherland Amsterdam

We do not teach the students
osteopathy....

We train them to become an
osteopath!
