Ethics & Osteopathic concepts

A precarious balance during both training and practice

Xavier Blusseau

Introduction

Osteopathy and public health

Osteopathy and research

Osteopathic concepts and therapeutic decision taking

Conclusion on training

Osteopathy in France = wellness

Osteopathy in France = wellness

Osteopathy in France = wellness

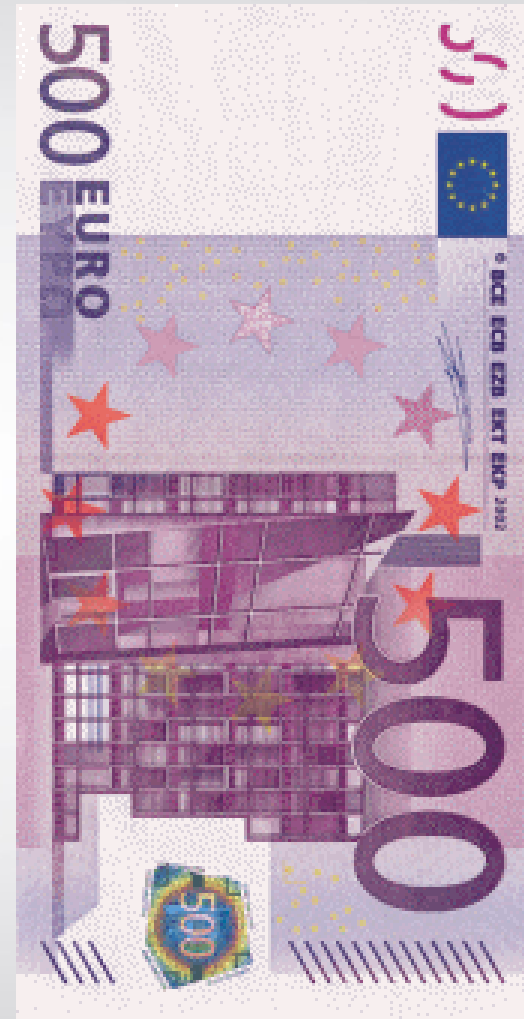

Osteopathy in France = wellness

Osteopathy in France = wellness

=

Osteopathy in France = wellness

Which pedagogical criteria ?

Osteopathy in France = wellness

Which pedagogical criteria ?

Is belief ethics ?

Osteopathy in France = wellness

Which pedagogical criteria ?

Is belief ethics ?

Is epistemology death of osteopathic concepts ?

Osteopathy in France = wellness

Osteopathic check ?

Osteopathy : pain medicine or a conceptual approach to health

**Osteopathy : pain medicine
or a conceptual approach to health**

Population wants to see the osteopaths as specialists in pain

**Osteopathy : pain medicine
or a conceptual approach to health**

Population wants to see the osteopaths as specialists in pain

Population doesn't care of dysfunction

**Osteopathy : pain medicine
or a conceptual approach to health**

Population wants to see the osteopaths as specialists in pain

Population doesn't care of dysfunction

Conclusion

Musculoskeletal pains are a public health

Conclusion

Musculoskeletal pains are a public health

Model of medical decision-making on functional disorders

Conclusion

Musculoskeletal pains are a public health

Model of medical decision-making on functional disorders

Don't ignore the reality of lack of effectiveness

Conclusion

Musculoskeletal pains are a public health

Model of medical decision-making

Don't ignore the reality of lack of effectiveness

OSTEOPATHY AND RESEARCH

Science and efficacy of osteopathy

Science and efficacy of osteopathy

Acute pains that have a favorable spontaneous evolution

Science and efficacy of osteopathy

Acute pains that have a favorable spontaneous evolution

Chronic conditions : pain in short term

Science and efficacy of osteopathy

Acute pains that have a favorable spontaneous evolution

Chronic conditions : pain in short term

No effect on limiting relapse

Science and modes of action of osteopathy
